Subject  
Lexam - USFWS

I think everyone can agree that this process is taking far too long. We seem to be having great difficulty completing simple tasks like submitting our final comments in order to complete the EA.

Perhaps the FWS can answer the following questions:

1. Have Ron's final comments been sent to ENSR?
2. If they have not when will they be submitted?

3. If they have been submitted when will we have the final EA?

I have been told that all we need is Ron's comments and the final product from ENSR. What do we need to complete the finish off this process?

Ian
